Lease/Loan Considerations:

The South Carolina 4-H Horse Program strongly recommends that individuals leasing horses should enter into a written leasing agreement with the owner of the horse. A lease protects the rights of both the owner and the lessor and prevents misunderstandings.

Before entering into a leasing agreement the lessee and lessor should determine who will be responsible for the items listed below. This list is not all inclusive and other factors may need to be considered:

- ' Daily Horse Care
- ' Horse Stabling/Boarding
- ' Routine Veterinary Care
- ' Emergency Veterinary Care
- ' Farrier Care
- ' Training
- ' Special Horse Needs
- ' Transportation
- ' Tack and Equipment
- ' Leasing Payment Schedule
- ' Equine Insurance
