Brand Font Installation Guide
Mac OS X 10.5/10.6

Before starting – make sure that you have placed the brand fonts in a folder on your desktop.

1) Navigate to the “Font Book” Application. This is found under your hard drive – “Applications” – “Font Book”

2) Go to “File”, “Add Fonts…”
3) You will be prompted to select the fonts you want to add. On the screen that dropped down in font book, navigate to your desktop, and the folder that contains the brand fonts. Navigate down into each specific font folder and select the fonts to install. – Click “Open”.

4) Font Book will then install the font files onto your computer. When you have finished installing all fonts, restart your computer and they will be available to the operating system and applications.
