As a part of the Academic Recovery Program, I want to remind you of an upcoming important academic deadline. The last day to DROP a course without receiving a final grade is Friday, March 18, 2011. Please take a moment to see how you are performing in each of your courses this semester and decide whether or not you need to make any changes (increase effort in coursework, take advantage of academic resources on campus, or possibly drop a course). The form below can be used to assess your success so far this semester. Questions? Contact Elizabeth McWilliams (emcwill@clemson.edu) or your academic advisor.

### Mid-Semester Success Check

<table>

| How to Use the Mid-Semester Success Check

1) Fill in chart with courses you are taking this semester.
2) Fill in absences and graded activities that have occurred thus far for each course.
3) For any blank boxes, check Blackboard and/or with your instructor for additional grade information.
4) Consult the syllabus for each course to determine how the final grade will be calculated.
5) Fill in what your current grade/academic status is in each class.
6) Determine whether you are satisfied with your course performance thus far. Decide if you need to: 1) drop any courses, 2) seek course assistance, or 3) increase effort to improve your performance.
7) Use the GPR Calculator to estimate what your GPR will be at the end of the semester. [http://www.cs.clemson.edu/html/academics/GPA_Calculator/](http://www.cs.clemson.edu/html/academics/GPA_Calculator/)
8) Questions? Consult your advisor or Patrice Noel, 656-1681 or pnoel@clemson.edu.

### How to Meet with Your Professor:
- Visit during office hours or make an appointment. Be on time.
- Be professional – introduce yourself and share your commitment to being successful in the course.
- Share that you would like some mid-semester feedback. Request the information you need to fill in blank boxes for course.
- If needed, say “Do you have any suggestions for how I could improve in this course?”
- Say “Thank you. I appreciate your help.”
