</tr>
<tr>
<td>3 ARCH 8740</td>
</tr>
<tr>
<td>3 ARCH 8820</td>
</tr>
<tr>
<td>15 credits</td>
</tr>
</tbody>
</table>

IMPORTANT NOTES

CREDIT HOURS: Credit hours must total 15 each semester to complete graduation requirements in a timely manner, except if electives are taken during the summer. No more than 15 credit hours may be taken in a semester.

STUDIES II: All students must have taken the equivalent of ARCH 8710 Structures II as undergraduates or must take this course, even if this requires staying on-campus for Semester 4 and excludes other electives.

ELECTIVES: Any Clemson Univ. graduate level course numbered 6000 and above.

CERTIFICATE PROGRAMS IN DIGITAL ECOCOLOGIES AND COMMUNITYBUILD: Visit the certificate programs webpages at the School of Architecture website.

FLUID CAMPUS COURSE OPTIONS: Off-campus study is an elective. Off-campus centers have limited second-tier elective options. Barcelona generally has a fixed slate of courses; Genoa may have a few options; and Charleston has more, as well as College of Charleston nearby. For details, contact the program/resident director.

THE GS2 PLAN OF STUDY FORM: The GS2 Form is required for graduation and it has information about graduation requirements. See http://www.clemson.edu/graduate/students/gs2-hints.html.
