

# Change of Major into the Nieri Family Department of Construction Science and Management

## Guidelines

Change of major requests are considered only once a year – in late May or early June.

Students wishing **to be considered** to change their major into Construction Science and Management (N<sub>i</sub>CSM) must:

1. Have at least 30 semester credit hours with a minimum cumulative grade point average of 3.0. **Students will be selected based on their cumulative grade point average and the number of spaces available.**
2. Have successfully completed English 1030; Physics 2070/2090; and the mathematics requirement (1060 or 1020) by the end of the spring semester of the year requesting change of major into the department.
3. Submit the Change of Major Request Form

Procedure:

The student should place their name on the department change of major request list in the N<sub>i</sub>CSM department office – 2-122 Lee Hall.

The department will consider all the requests in late May or early June and select the top students based on space availability. Students not meeting the above stated minimum requirements at the end of the respective spring semester will not be considered.

For specific questions, contact the N<sub>i</sub>CSM department at 864/656-0181 or email: [adebora@clemsun.edu](mailto:adebora@clemsun.edu).
