- Clemson University News Services, E-Mail and Fax
- South Carolina Radio Network Station WEPR-Radio 90.1 FM
- NOAA weather radio frequency Anderson/Pickens/Oconee 162.550 mhz
- Campus outdoor siren warning system
- Duke Power siren system
- University Police and Fire vehicle public address systems

For more information call, Duke Energy's World of Energy at 1-800-777-1004.

**SIREN SYSTEMS**

To ensure sirens are working correctly, they are tested regularly. The testing is part of normal maintenance, and no public action is necessary. Siren tests last approximately 3 minutes. In an emergency, the sirens would sound repeatedly.

If you hear a siren sound repeatedly, turn on your radio or television immediately for emergency information messages. Follow instructions and stay tuned. **Hearing a siren does not mean you should evacuate.**
SEVERE WEATHER INFORMATION

THE UPSTATE OF SOUTH CAROLINA IS SUBJECT TO TORNADO GENERATING WEATHER CONDITIONS.

In The Event of Severe Weather: If a cloudy sky becomes stormy or rough in appearance tune in to local radio or area television broadcasts for possible advisories from the National Weather Service.

TORNADO WATCH

A TORNADO WATCH indicates that conditions are favorable for spawning tornadoes. If a TORNADO WATCH is issued, designate an observer to monitor weather conditions, preplan your refuge. (This action is key to your safety)

TORNADO WARNING

A TORNADO WARNING announces that a tornado has been sighted in the area. When a TORNADO WARNING is issued for the Clemson area go immediately to your refuge! (Campus alerting sirens will be activated by the University Police Department Dispatch Center)

WHAT TO DO

Be sure that you and any group you supervise will be able to reach one of the following areas in seconds:

- A BASEMENT area with no windows
- A BOTTOM-FLOOR HALLWAY.
- AN INTERIOR HALLWAY or SMALL INTERIOR ROOM with no windows.
- When inside your REFUGE AREA, sit on the floor. If a Tornado strikes, duck your head between your knees and cover the back of your head with your hands for protection.

DO NOT

DO NOT seek refuge in the following areas: Gymnasiums, auditoriums, dining halls, workshops, laboratories, classrooms, exterior rooms with windows, elevators, stairwells, non-masonry buildings, barns, utility areas, mobile units, or mobile vehicles.

DO NOT SEEK REFUGE OUTSIDE. However, if there is no other choice, plan to lie flat in a ditch or culvert!

IN CASE OF FIRE

FIRE ALARMS

If the fire alarm sounds in the Clemson University building in which you are visiting, working or living; PROCEED IMMEDIATELY TO THE NEAREST EXIT.

BEFORE A FIRE EMERGENCY

- Be familiar with your posted evacuation plan.
- Know the locations of fire alarm pull stations.
- Know the locations of two exits from your building.

UPON DISCOVERING A FIRE

- Remove any persons in immediate danger.
- Close the door of the room/area where fire is present.
- Activate the building fire alarm system with the fire alarm pull station.
- Leave the building using the nearest exit and remain at least 500 feet away from the structure.
- CALL 911; Give the building name, location, and description of the fire.
- DO NOT USE ELEVATORS.
