Will a printer owned by the university and located in a person's home be covered by the Print Smart program?  

Yes. The printer can be home-based with toner and break/fix coverage.

- The printer must be brought to the Dillard Building to be tagged.
- All toner will be distributed from the Dillard Building by appointment only. A current configuration page from the tagged printer must be presented. If you are not sure how to print a configuration page, please call the Print Smart Team at 656-0202 or email us at printsmart@lists.clemson.edu.
- The end user will bring their PC to the Dillard Building to have tracking software loaded.
- The end user will bring their printer to the Dillard Building for all maintenance needs.
- Home-based printers will be billed on a bi-yearly basis. The end user will be responsible for reporting all usage.
  (Users with a desktop PC will have the software sent to them for install.)
