

**Chemical and Biomolecular Engineering Department  
Departmental Honors Program**

***How to graduate with Departmental Honors***

Students must qualify for and be admitted into the Calhoun Honors College.

Satisfactory completion of the four course sequence CHE 3000, CHE 3950, CHE 4950 and CHE 4970 meets the requirements for Departmental Honors in Chemical and Biomolecular Engineering.

Honors Theses, the work product of the four course sequence above, are due to the departmental Honors Coordinator in the week penultimate to finals week of the graduate year.

Follow the Honors Thesis template

Have your Honors Thesis reviewed and approved by your mentor

Prof. Rachel Getman  
Department of Chemical and Biomolecular Engineering  
Rm. 205 Earle Hall  
Clemson, SC 29634  
Tel: 864-656-5423; rgetman@clemson.edu

Honors theses are to be bound and a copy lodged with the ChBE department's main office and also with the thesis mentor.

An electronic copy of the honors theses **MUST** to be deposited with the Calhoun honors College. This must be lodged with the office by the end of finals week and BEFORE the last official day of school.

Ms. Wini Del Winkler, Administrative Assistant  
Calhoun Honors College  
Clemson University  
Core Campus, Suite 180  
Clemson, SC 29634  
Tel: 864-656-4762; wwinkle@clemson.edu

Students completing BOTH Calhoun College Honors and Departmental Honors and their mentors are both extended invitations to attend the Calhoun Honors Award Ceremony.

The Honors Medallion is inscribed on the back with the graduating department.
