

**ECE 4910-004**  
**Undergraduate Honors Research**

**Instructor:** Dr. Jon C. Calhoun  
**Email:** [jonccal@clemson.edu](mailto:jonccal@clemson.edu)  
**Office:** Riggs 221-C

**Class Location/Time:** N/A

### **Course Description**

The student will work on an individual research project jointly agreed upon by the student and Dr. Calhoun. The rigger of the project is such that upon completion the results can be compiled and sent to a workshop, conference, or journal for publication.

### **Course Objectives**

- Develop an understanding of how to conduct research.
- Learn how to conduct a literature review and to read scientific articles.
- Conduct the outlined research and present in progress results at weekly meetings.
- Gain technical writing experience.

### **Required Materials**

Textbook: None  
Internet connected laptop.

### **Course Management System**

The Canvas© system will be used to make class announcements, turn in assignments, and provide students access to additional course materials.

### **Late Assignments**

Late assignments will have 1 letter grade deducted for each day that they are late. Examples of excused absences include a death in the immediate family or personal conditions requiring hospitalization or emergency treatment. Personal illnesses such as colds, general fatigue, or general sickness are not typically excused. If you are unsure if your situation will be excused, contact the professor in a professional manner prior to or as soon as possible after the missed assignment.
