

Hello!

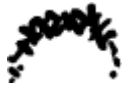

Thank you for participating in our study. When presenting the information about our study, we wanted to ensure that any images we used to represent you are a good representation of how you would want to be depicted while also providing anonymity. As such, we invite you to choose or design an icon for this purpose. We already have a pseudonym chosen by you, it is in the email that this document is attached to for your reference. When designing your icon, please keep in mind that though this is a representation of you, it may become identifiable if you design it closely to your appearance.

Below is the base icon, if you do not select any haircut or flair options the base icon will be displayed.

Below is a list of attributes to add to your icon. Please choose your haircut preference and as many flair options as you like (it may not be possible to incorporate all but we will do our best). You may also request different hairstyles or flair and we will try to accommodate. Hair and Flair can be any color, if you would like a specific shade please provide the [RGB](#) or Hex key, in most cases icons will be converted to grayscale.
