

Rates for use of the Quantachrome Autosorb iQ gas sorption analyzer.

There are five separate experiments that users may perform on samples. Rates are the same for each experiments, and are charges on a per-sample basis as listed below. These rates have been approved by the Clemson University Office of Vice President of Research.

Internal CU Users: \$50.00 per sample

External Public University Users (including federal government): \$60.00 per sample

External Industry Users: \$150.00 per sample
