A scientist walks into a bar...

Science on Tap is a forum where people come to learn about and discuss recent discoveries in science and technology while having fun! An expert will give an informal talk for 20 – 30 minutes, followed by Q&A and discussion. Attendees can get up, eat or refresh their beverages at any time. Science on Tap is FREE and open to all ages!

UPCOMING MEETINGS

October 11
LOOPS, BRAIDS AND MOBIUS STRIPS, OH MY!
A “Celebration of Mind” event to celebrate the things that delighted Martin Gardner — puzzles, games, math, magic and more!
» Niel Calkin, Department of Mathematical Sciences, Clemson University

November 8
SPACE-TIME EXCITEMENT
When compact steller objects merge, ripples in the fabric of space-time excite the universe.
» Dieter Hartmann, Department of Physics and Astronomy, Clemson University

January 10
HOW TO BUILD AN ANIMAL
A discussion of how animals develop.
» Kara Powder, Department of Biological Sciences, Clemson University

February 14
PARASITE LOVE: BAD ROMANCE AND TOXIC RELATIONSHIPS
Three vignettes about parasites.
» Kimberly Paul, Department of Genetics and Biochemistry, Eukaryotic Pathogen Innovation Center, Clemson University

Science on Tap is held from 6:30 – 7:45 p.m. the second Thursday of each month.
