

Issues in Educational Research: Understanding Diversity in Educational Environments

The Eugene T. Moore School of Education's CHARLES H. HOUSTON CENTER announces a research workshop for faculty, staff, and students interested in conducting research in education. The research workshop is designed to help participants:

- *Learn about the utility of conducting research on African Americans and other diverse and underrepresented populations in education
- *Apply methodological and theoretical techniques to conduct research about diversity issues in educational environments
- *Use nationally representative data to explore educational issues impacting diverse populations in education

The focus of the Fall 2009 research workshop will be to examine parental involvement issues in education utilizing the *Parent and Family Involvement in Education Survey*.

Research Workshop Agenda:

- *Discuss current research at the Charles H. Houston Center
- *Discuss quantitative research design issues germane to the study of diverse populations in education
- *Provide hands-on instruction for using the *Parent and Family Involvement in Education Survey*

Registration Process

Because the research workshop will take place in the PC Lab, G-09 in Tillman Hall, space is limited to 18 participants. To register for the research workshop, please e-mail Tasha Dendy (fdendy@clemson.edu) or call 656-0313.

About the Presenter

Cindy Roper is the Research and Planning Administrator at the Charles H. Houston Center. She has a Bachelor of Arts degree in Psychology and Sociology and a Master of Science degree in Applied Sociology from Clemson University. She is also a doctoral student in the Policy Studies Program at Clemson University. She specializes in analyzing secondary data to examine educational policy issues in education.
