CLEMSON SC 29634-5406

Dear CHUCK KNEPFLE;

ASCO Numatics, the world’s leading manufacturer of comprehensive fluid automation, flow control, and pneumatics solutions, is proud to open the 2013/2014 application period for its engineering scholarship program. Several changes to this year’s application process will make it easier for engineering students to participate.

ASCO Numatics will award two merit-based scholarships of $5,000 each to exceptional undergraduate and graduate engineering students pursuing careers in manufacturing, processing, or other industrial automation related disciplines. Additionally, ASCO Numatics will make $1,000 grants to the engineering departments of the colleges in which the winners are enrolled.

For the 2013/2014 school year, applicants must be enrolled full-time in an engineering, instrumentation, systems, electrical, mechanical, or automation discipline at an accredited U.S. educational institution. Applicants must be entering their junior or senior year in a four-year undergraduate degree program or enrolled in a graduate program. They must also have at least a 3.2 GPA on a 4.0 scale and be a U.S. citizen or legal U.S. resident.

ASCO Numatics will present the scholarship awards as part of the Amazing Packaging Race at PACK EXPO International 2013, September 25, 2013, in Las Vegas.

Applications must be submitted online at www.asconumatics.com/apply by May 24, 2013. Please post the enclosed flyers and share this information as widely as possible. If you know of students that display exceptional potential in automation-related disciplines, please urge them to apply. For more information, visit www.asconumatics.com/scholarship.

We thank you for your continued support in assisting us in our efforts to recognize and support tomorrow’s industrial automation talent.

Sincerely,

Robert Kemple
Executive Vice President, Sales and Marketing ASCO Numatics—Americas
WIN A $5,000 SCHOLARSHIP
Presented by ASCO Numatics

ASCO Numatics, the world's leading manufacturer of comprehensive fluid automation solutions, flow control and pneumatics, is proud to award two merit-based scholarships of $5,000 each for U.S. engineering students who are pursuing careers in industrial automation-related disciplines, as well as two $1,000 grants to the engineering departments of the colleges at which the winners are enrolled. Scholarship recipients may also be eligible for an ASCO Numatics internship.

Details are available at:
www.asconumatics.com/scholarship

Don't miss out on the chance to win $5,000. To be eligible to receive the scholarship, you must have completed at least your sophomore year and be enrolled as a full-time student for the entire 2013/2014 academic year.
