GRADUATE STUDENTS

Positions are open in the Urban Research Group for graduate students to pursue a Ph.D. in the area of polymer/materials physical chemistry. For more information regarding Ph.D. studies at Clemson University (http://www.grad.clemson.edu/), please refer to the departmental Ph.D. program description: (http://www.clemson.edu/ces/departments/mse/).

UNDERGRADUATE STUDENTS

Undergraduate research positions are also available. Students with a strong interest in research to be conducted during the school year or summer are encouraged to apply. Send a brief statement of interest and information on major, year, GPA, relevant courses taken and prior experience (if any) to Prof. Urban (mareku@clemson.edu).

COMMUNITY COLLEGE STUDENTS

Community college students are invited to apply for paid summer and/or academic year research internships. Work hours are negotiable. Please send a brief statement of interest, GPA information, and relevant courses taken to Prof. Urban (mareku@clemson.edu).

HIGH-SCHOOL STUDENTS

High-school students are invited to apply for summer and/or academic year research positions. Send a brief statement of interest and information on grade, GPA, and relevant courses taken to Prof. Urban (mareku@clemson.edu).

POSTDOCTORAL RESEARCH ASSOCIATES

Postdoctoral research positions may be available only for highly qualified candidates. Graduating PhDs with a strong interest in academic research in fundamental and applied chemistry, polymer, and materials science are encouraged to apply. Send a brief statement of your research interests, future plans, and resume to Prof. Urban (mareku@clemson.edu).
