

Elizabeth Sloan

BS/MS Bioengineering, May 2012

Hey y'all! I'm Elizabeth, and I was born and raised in Dallas, Texas. I am in my third year at Clemson, and I plan on staying an extra year to earn my Masters in the BS/MS program in Bioengineering. Before my freshman year, I had the wonderful opportunity to participate in the EUREKA! program through the Honors College. I am the treasurer of the Clemson's Club Golf team, a small group leader for Fellowship of Christain Athletes (FCA), the social chair of Tau Beta Pi Engineering Honor Society, and the chaplain of my sorority, Gamma Phi Beta. I am also involved in Greek InterVarsity, Alpha Lambda Delta Honor Society, Golden Key, and Phi Kappa Phi Honor Society. Currently, I am participating in a Creative Inquiry on developing an Implant Retrieval Program for Clemson, and this past summer I interned at Texas Scottish Rite Hospital for Children in Dallas working on arthritis research. In addition to being an Honors College Ambassador, I am also an ambassador for the Bioengineering program. I love talking about Clemson to anyone who will listen, and I love sharing about my experiences here. If you have any questions, please send me an email!
