

Matt Cupelli  
BS/MS BioEngineering, May 2012

Hey Everybody! My name is Matt Cupelli, and I am a BioEngineering major at Clemson. I'm a junior here at Clemson, but I'm working on a BS/MS combined program, so I'll be in school for 5 years total. I'm from Morgantown, WV and I absolutely love that I left home and came to Clemson. I love it here, and I really enjoy sharing my passion about Clemson and the honors college to other people. I am an ambassador for the Calhoun Honors College as well as the BioEngineering Department. The honors college has given me so many opportunities and has helped me in my college career immensely. I enrolled in the EURKEA! Program through the Calhoun Honors College the summer before my freshman year, and that was a great opportunity for me. Actually, I still continue the research I started that summer. I love talking about all of my experiences from Clemson and the honors college, and I would love to spend some time getting to know prospective students. So, please e-mail me if you have any questions or you would just like to talk! Thanks!
