Secondary Mathematics Education. Assistant Professor. The College of Education at Clemson University seeks a tenure-track joint appointment in secondary mathematics and mathematical sciences at the rank of Assistant Professor beginning Fall Semester 2016. The home department of this joint appointment will be the Department of Teaching and Learning in the College of Education. The successful candidate will join a dynamic faculty of four mathematics educators in the College of Education, two of whom hold a joint appointment with the Department of Mathematical Sciences.

Required Qualifications: Earned doctorate in Mathematics Education or related field and a minimum of three years of successful secondary school teaching experience (high school teaching experience is preferred) or equivalent substantial experience in secondary schools. A master's degree or equivalent in mathematics is required.

Preferred Qualifications: We are open to a range of research areas and interests related to mathematics teaching and learning in secondary school contexts or the preparation of teachers for such contexts.

Successful candidates will be expected to develop and maintain an active scholarly research agenda and participate in external grant activities. In addition, the new faculty member will be expected to teach undergraduate- and graduate-level courses in secondary mathematics education, mathematics courses for preservice mathematics teachers, advise master's- and doctoral-level graduate students in their research, and provide service to the profession, university, and state.

The College of Education is a transformative leader in systemically improving education, beginning at birth. Our mission is to engage our students in high quality applied research, professional learning, and immersive experiences. We prepare culturally competent scholar practitioners who promote the growth, education, and development of all individuals, with emphasis on underperforming schools and underserved communities across the state and nation. The mission of the Department of Mathematical Sciences is to create and discover new knowledge in the mathematical sciences, to disseminate new and existing knowledge in the mathematical sciences, and to apply new and existing knowledge in the mathematical sciences to benefit the economic future of the state and nation. Clemson University is an AA/EEO employer and does not discriminate against any person or group on the basis of age, color, disability, gender, pregnancy, national origin, race, religion, sexual orientation, veteran status or genetic information. Clemson University is building a culturally diverse faculty committed to working in a multicultural environment and encourages applications from scholars of color and women.

To apply, send letter of application, curriculum vita, a sample of scholarly writing, unofficial transcripts, and contact information for 3 references to Ms. Sandy Cizmar, at scizmar@clemson.edu; please reference Secondary Mathematics Search Committee in your cover letter. Inquiries may be addressed to Dr. Megan Che (sche@clemson.edu). Salary is competitive and commensurate with experience and qualifications. Applications received by January 15, 2016 will receive full consideration; however, applications will continue to be received until the position is filled.
