Farm Accounting and Financial Analysis (FAFA) – Learn how to gain confidence in understanding your own accounting data and be able to plan your farm business actions with the help of Clemson University Extension Service. Bring your farm financial statements (balance sheets, and income statements) to identify financial strategies for your business.

(9 am to 4pm) with on-site lunch

Laptops will be available to all participants. But, participants are encouraged to bring their own. Fill out the form and bring to the training session you selected from this website, or register Online.
