

Rock Around the Clock 2009

Fairfield County Extension Service participated in the 2009 Rock Around the Clock festival in Winnsboro on Saturday October 3, 2009. Information was available to the public on such timely topics as fall gardening, food safety (hand-washing), wild fire safety. There was also a display with information relating to fire ant control. This was one of the more popular requests. There was a Fairfield County Master Gardener available to answer horticulture questions. Join us next year at the Rock Around the Clock.
