

Acknowledgements:

Dr. James Camberato, Purdue University, co-authored the fertility check list and has provided invaluable support on fertility issues for many years.

Dr. A. Stanley Culpepper of the University of Georgia co-authored the burndown weed management section.

We appreciate the generous sharing of ideas and results by many peanut workers in all of the peanut producing states, and we are particularly indebted to:

Drs. Tim Brenneman, Albert Culbreath, Bob Kemerait, and John Beasley (University of Georgia); Dr. David Jordan (N. C. State University) and Dr. Pat Phipps (Va. Tech.)

Finally, and most importantly, we gratefully acknowledge the support of S. C. peanut growers for peanut extension and applied research through the **S. C. Peanut Board**, and research support through the **National Peanut Board**.
