Explanation of Symbol

Article II, Section I of our Constitution and Bylaws states that the primary purpose of our Association is to establish and maintain a structure through which members may be united in a professional and improvement effort for the benefit of themselves and the Clemson University Cooperative Extension Service.

Communications

“To improve working relationships and communications between Agents and Secretaries in regard to planning time and work.” To communicate our aim to avail the general public of the many services offered by the Clemson Extension Service.

Attitude

“Smiles breed smiles!” And so will a good attitude, helping each of us to perform our duties with conscientious dignity and better working relationships with all personnel as well as with the general public.

The Art of Listening

Developing the art of listening is a “must” and one of the hardest steps in becoming more professional. Certainly in our profession it is one of utmost importance.

Loyalty

The torch signifies “loyalty” as well as “unity”. Loyalty to each other, to our superiors, to our association and to Clemson Extension Service.

If each member of SCAEAP will adhere to these characteristics: improved communications, good attitude, developing the art of listening, and remaining loyal; our Association will meet and accomplish each of the purposes and objectives for which it was established.
