June 14, 2016

1. Call to Order: The Faculty Senate Meeting was called to order at 2:35 p.m. by Vice President/President-Elect, Amy Lawton-Rauh. VP Lawton-Rauh then asked for a moment of silence for the mass shooting in Orlando, FL. Thereafter guests were asked to introduce themselves.

2. Approval of Minutes: The Faculty Senate meeting minutes dated April 11, 2016 were approved as distributed.

MOTION: Senate Policy Committee Chair, Cassie Quigley made a motion to suspend the rules and change the order of the agenda, while the Senate had quorum, to present and vote on the proposed Faculty Manual change listed under Unfinished Business: Part VII. Faculty Participation in University Governance, Section 2. Council on Graduate Studies (a-f). University Faculty Grievance Coordinator, Monica Patterson provided information regarding the structure of the board as it may relate to graduate studies grievance procedures in sub-section e. An approved motion was made to send sub-section e back to Policy Committee and all other sections (a-d and f) were approved as distributed and upon Provost approval will be included in the August 1, 2016 Faculty Manual. Senator Quigley finished by announcing that the Senate plans to review and work with constituencies to revise the rest of Part VII for the August 2017 Faculty Manual. Dean for Graduate Studies, Jason Osborne thanked the committee, President Kurz and Senate for their help with the changes to make the committees functional.

3. “Free Speech”: None

4. Executive Vice President for Academic Affairs and Provost Robert H. Jones discussed diversity and inclusion efforts, college reorganization updates, and personnel changes within CCIT. Provost Jones announced that there is an increase in African American undergraduate student enrollment, but decreases in Hispanic enrollment. At the August retreat deans will learn how each faculty search process, from committee composition to new faculty hire, will include approvals by the Provost, Associate Provost for Faculty Affairs Ellen Granberg and new Chief Diversity Officer Lee Gill in the University’s effort to build more diverse candidate pools, learn and understand unconscious bias in decision-making and improve hiring practices overall.

Additionally, Provost Jones also reminded Senate of the July 1 change to the new college reorganization structure, with new and mid-stream students changing to new college structure on August 15. The budget will be presented to the Board of Trustees at their July quarterly meeting. Lastly, Provost Jones said that with the new strategic plan and changes in senior leadership the University has an opportunity to meet new IT needs. The search and selection committee will be lead by Dr. J. Cole Smith, Professor and Department Chair of Industrial Engineering, and was the first committee vetted through the new diversity hiring protocol.

Senate asked many questions of the Provost about the Sikes sit-in protest by, primarily African American students, who called for more diversity and inclusion on campus, as well as administration’s response. Specifically, Senator Shannon Roberts called for better protection of victims of harassment, discrimination and hate crimes. Senator Jan Holmevik called for more transparency and improved communication from administration and that do not want to hear first of campus incidents via news outlets. Senator Roberts ended asking that private donations be used for undocumented student tuition, but Provost Jones explained that the University does not have sufficient private endowment for such
scholarships and that only four percent of the total budget can be used in South Carolina for discounting tuition. Increased scholarships are to target areas where economically depressed and first-generation, which includes many racial and ethnic minority students.

There are over 5,000 students enrolled in CU 1000 at this time. This is a pass/fail course that will be included on students’ transcripts but will not be calculated into their GPA. The purpose of the course is to introduce the incoming students to the resources available to them, Clemson’s community standards, and learning about different social identities so that the students will feel an increased sense of connection to the University and academic self-efficacy. In order to improve the focus and increase the affect of the program, each module of the course will assess the students’ knowledge of the previous information shown. These assessments will include content quizzes and end-of-course self-efficacy and sense of belonging questions.

   The course modules will be broken down into online and in-person parts. The online modules are: Library Resources, Mission transition (aims to help students transition from home, inside and outside of the classroom), CU Ethos (aims to teach students how to make ethical decisions and exemplify Clemson’s core values), Title IX, and the University’s Student Code of Conduct. The in-person modules consist of Aspire training, Community Dialogue, Clemson Educational Profile, and the Summer Reading project.

FACULTY SENATE MEETING
September 13, 2016

1. **Call to Order**: The Faculty Senate Meeting was called to order at 2:31 p.m. by President Mary Beth Kurz.

2. **Approval of Minutes**: The Faculty Senate Meeting Minutes dated August 16, 2016 were approved.

3. **“Free Speech”**: None

4. **Provost Jones**: Provost Jones presented to the Senate five changes and improvements that are being made across the university. The first change, College Reorganization, he discussed primarily the implementation of the new College of Science. The College of Science will engage in an independent audit to make sure that the college will have enough funding to last. Long Hall is going to be renovated to support the college’s staff space. The next improvement that Provost Jones discussed was the Promotion and Pay Raise Issue problem that was fixed for lecturers that move to senior lecturer status. Thirdly, during the discussion about the Strategic Enrollment plan, Provost Jones said that he believes that the university will grow slightly. The Board of Trustees have the decision on how the university increases or decreases throughout each academic year. The plan includes efforts to increase diversity in the categories such as in-state versus out-of-state, race, and gender. In order to make these changes the university will be calling upon members of Faculty Senate to give input on the plan. In order to improve diversity for faculty, training for all deans and chair of colleges will take place to learn about best hiring practices. The final improvement that Provost Jones discussed was the Tenure and Promotion Annual workshop that takes place. The plan through this workshop is to improve TPR and to invite both past and present TPR chairs for input to reflect on issues that happened last year and what can be done to improve the process.

5. **Special Order of the Day**: a. Dean John Griffin, Undergraduate Studies & Dr. Katherine Perkins, Interim Director of Clemson Online: Canvas, New Course Management System

The presentation stemmed mainly from clemson.edu/canvas that provided information and calendar dates about the implementation about the new course management system, Canvas. Blackboard will still be accessible for reference of old courses for faculty members. If a course does not migrate correctly from Blackboard to Canvas, then the instructor will have to make a request to get the course added to the system. Also, any workgroups that were previously on
Blackboard will have a similar system on Canvas for file sharing. No changes will be made to an instructor’s courses without their permission.

- August 1 - Choice of continuing to use Blackboard or Canvas
- August 17 - Fall semester training for the program
- October 1 - Bulk migration of Blackboard courses begin that will hopefully be completed by mid-November
- October 31 - November 2: On-site training from Instructure

b. Dean Maggie Farrell, University Libraries: Research resources and support

Dean Farrell presented on the status of research material and budgets of the libraries across the university. The goal of the libraries is to have all university libraries transform to a research library system. The libraries want to develop more department centralized collections for professors and students to use for research on projects. The current collections budget for the libraries is 8.1 million dollars. Dean Farrell asked faculty members to notify the library of any gaps that are found in the collections in the library. Lastly, she mentioned that the library funded Dr. Mae C. Jemison for its 50th anniversary to speak at the August General Faculty Meeting and Convocation.

a. Graduate Academic Grievance Committee (Part VII Section 2e)

This part of the Faculty Manual was being changed to match the language of the new college reorganization. This change includes the Libraries. MINUTES
CLEMSON UNIVERSITY
FACULTY SENATE MEETING
October 11, 2016

1. Call to Order: The Faculty Senate Meeting was called to order at 2:31 p.m. by President Mary Beth Kurz. UPIC Intern Hannah Provost introduced guests.

2. Approval of Minutes: The Faculty Senate Meeting Minutes dated September 13 were approved.

4. Executive Vice President & Provost Robert H. Jones: Provost Jones provided several updates. NSF ADVANCE Award is almost certainly to be announced soon, for 3.4 million dollars and focuses on minorities and women who are interested in gaining leadership roles in STEM. Faculty Search Committee training sessions for diversity have occurred. Monthly training sessions for department chairs include topics such as TPR and compensation. The Strategic Enrollment Plan will be presented to the Board of Trustees this week at the quarterly meeting. The committee and task force for this plan includes faculty from all colleges, deans, and administrators. The purpose of the plan is to cover all aspects of the academic side of the university including teaching, research, internships, etc. to engage undergraduate students. Provost Jones believes that our infrastructure is not efficient in holding our student body comfortably. Provost Jones discussed the impact of Hurricane Matthew on our campus areas in Charleston and other coast locations. Dr. Askew is going to these locations this week to look at the damage from the hurricane. Clemson is fulfilling the promise of having endowed professors (Duke Energy and Michelin Endowed Chairs are now at the university). MUSC Design Center, Coastal Recreation, CU-ICAR are increasing revenues in research and tuition dollars. It is important that our university has an urban strategy in order to compete with top institutions. This plan is for the next five years, but a master plan is also being created for the university. Business, chemistry, material science, and engineering are at the top of the list for needing new infrastructure. Decisions are being made if buildings should be renovated or if new buildings need to be built. The audits for the colleges are currently taking place.

5. Special Order of the Day: None

6. Committee Reports:
   a. Faculty Senate Standing Committees:

Finance – Committee Chair Jennifer Ogle reported the committee will have a report of the meetings from VP Kennedy and Human Resources at the next full senate meeting. The committee is starting to fully understand the operational changes that will take place over the next year. The committee is looking at the Human Resources process with the redistribution process and other information that faculty have been asking for. The committee plans to focus on three topics moving forward: Enrollment Management Plan, tuition changes with Brett Dalton, and changeover of budget allotments to colleges.

Policy – Committee Chair Cassie Quigley reported about proposed changes in the Sabbatical Process regarding dates (See attached Part IX section H). The provost’s office was not keeping a list of sabbatical projects so the committee wants the provost to add this list to the webpage.

Part VII section: The Research committee made the first edits to this piece along with the VPR’s office. The Research Council would be changed to the Research Advisory Board because its purpose is to provide
guidance and not necessarily decision making. The proposed change included the templates that all Part VII committees will eventually follow. The next change would be to the committees administered by the Office of Research Compliance in which faculty members only have partial control but is mainly administered by the VP of research and on the federal level. The Intellectual Committee reports to the VPR and the information for the committee have been changed to the new template. The Research Grants Committee reports to the VPR and the numbers have changed to two regular faculty who will serve a three year term and one faculty from the library.

Research – Committee Chair Dorothy Schmalz met with VP Karanfil to discuss changes to the Faculty Manual and wants to change the Research Council to the Research Advisory Board. The VP confirmed that it is a one-time thing that the grants got denied at the university level and did not get sent out to the national grant committee. The committee is proposing that the Small Restricted Receipt project amount should be raised, and the VPR agreed that it should be raised. There will be continued discussions regarding a Research Incentive Proposal.

Scholastic Policies: Committee Chair Jan Holmevik reported that the committee met on Sept. 14. The council of Undergraduate Studies discussed that there was no enforcement to give a time frame for faculty members who give students incomplete grades. Dean Griffin said he would give out a letter to say that there was a 30-day limit into the next term. There will be a process to ask for an extension if deemed necessary. There was also discussion about how many credit hours students can take during the summer. The Student Body President, Joey Wilson, has talked about having a test moratorium for a whole week before finals. Chair Holmevik will meet with President Wilson to come to a resolution. Chair Holmevik is getting a Digital Literacy initiative launched with Dean Griffin and the General Education task force.

Welfare – Committee Chair Katherine Weisensee reported that the committee reviewed the COACHE results given from the Human Resources office and are planning to have written policies available to everyone via the Human Resources website. There needs to be more information about dual hire and tenure policies. There was a suggestion to allow spouses of faculty members to have access to the internal job board on the Human Resources pages. The committee will continue to monitor the childcare facilities and families with school-aged children. There is a need for additional lactation rooms. The committee is also exploring the option of phased retirement.

b. ad hoc Faculty Senate Committees

Diversity and Inclusion: Chair Rhondda Thomas reported that the committee met on October 4. The final report from the committee will come in February. In November, CDO Lee Gill will come to meet with the committee. The subcommittees have been meeting with various people to collect data. The committee believes that there is a fragmented approach amongst diversity initiatives which the committee hopes to centralize. The Provost is trying to find out how to find funding for these initiatives. The aim is to get a million dollars to recruit diverse faculty across the university. The committee wants to make sure that through the Diversity training that committee chairs and search committee chairs are sharing information with their faculty members. The committee shared concerns about faculty retention and mentorship, how to make Clemson attractive to diverse faculty, improving the training module, the effectiveness of online training versus in person training, and the longevity of diversity training. The committee has a concern about the faculty involvement in the CU 1000 course, deciding if the committee should be elected and not appointed, and removing the course from being just an extension of orientation.

Status of Lecturers and Senior Lecturers: Co-Chair Ed De Iulio reported that two universities have been assigned to each committee member to contact. The committee has given the questions to the university’s
Institutional Research office who has distributed the questions to the R1, no-med schools who are part of the Southern University group.

Athletics and Academics Oversight: Chair Bob Brookover reported that the meetings for the committee were cancelled.

c. University Commissions and Committees:

i. Women’s Commission: Chair Jennifer Ogle reported that there is a proposal sent in for childcare providers.

ii. Chief Information Officer Search Committee is scheduling airport interviews for October 17th, 18th, and 19th.

7. Unfinished Business: None.

8. New Business:

a. Part IX Section H
The Senate voted to move the dates for Fall Sabbatical up by 30 days in the Faculty Manual. The changes were accepted unanimously.

b. Part VII Section F
The Senate voted to amend this section of Part VII to change the names of committees listed and remove the names of committees that are obsolete. The changes were accepted.

9. President’s Report: Senate President Mary Beth Kurz discussed the Part VII of the Faculty Manual, Committee on Committees and the Shared Governance website. The Faculty Manual should include only committees that are core to faculty concerns. All other committees would have to go before the Committee on Committees. President Kurz showed a template of what these committees would have to fill out to be considered active.

2. **Approval of Minutes:**

3. **“Free Speech”:** None.

4. **Executive Vice President & Provost Robert H. Jones:** None

5. **Special Order of the Day:**

   a. **Strategic Enrollment Plan- Chuck Knefle-Associate Vice President of Enrollment Management**

   Provost Jones asked Chuck Knefle to compile a task force to put the Strategic Enrollment Plan together. The plan is to increase the number of in-state students, meet the University diversity goals, support all aspects of the ClemsonForward strategic plan, create global learning opportunities for students, enable academic departments to meet student demand, improve current faculty-to-student ratio, and ensure adequate classroom and lab space. Knefle showed data of the enrollment plan currently. Clemson University falls at the bottom of graphs showing international student enrollment. Over ten years, the task force expects undergraduate student enrollment to be around 22,000. The benefits of this new enrollment plan is that it moves the size of the university into a more competitive stance. The goal of the plan is to protect and potentially add additional dimensions to the *Clemson Experience* as the university grows, ensure planned growth is resourced correctly, maintain an excellent town and gown relationship with the city of Clemson and surrounding communities.

6. **Unfinished Business:** None.

7. **New Business:**
   a. **Class of ’39 Vote**

   The vote will be postponed because quorum was not reached at the meeting. The vote will happen electronically.

concerned about the number of students seeking accommodation letters for tests and assignments. Specifically the committee is concerned about proctors, technology, and testing spaces that will be needed to support the mass influx. A representative from Student Disability Services and Dean Griffin came to the committee meeting to discuss how to create a plan to improve the relationships between faculty and students with accommodations. Dean Griffin’s goal is to create an exam center so that professors will not have to struggle to find locations to proctor tests. The second item that the committee is working on is the week-long test moratorium that Undergraduate Student Body President, Joey Wilson, is seeking to be implemented. The committee plans to meet with the Registrar’s office to discuss placing this in the schedule in the following years. OER stipend will be given to a faculty member from each college who would be willing to transition to OER learning.    **Rationale for Change:** Changes to procedures for extending the probationary period made it clear that some faculty members who had extended their probationary period were not being fairly reviewed (i.e., publications not counting during the extension year, held to a higher standard of review, and/or receiving reviews that denoted leave was seen as an unproductive year). The policy committee added language to clarify Section B in two places, including sentences emphasizing that reappointment/promotion criteria do not change based on the number of years of the probationary period.

   There was a motion to amend the draft by removing “tenure-track”. The motion was withdrawn. There was a motion to delete “Factors…positions”. The vote was to keep the sentence. Then, there was motion to vote on the original document. The edits were voted on and accepted by the Senate.

   b. Presentation of EAC Senate Officers
For Vice President/President Elect, Jan Holmevik and Katherine Weisensee have been nominated. There are no current nominations for Secretary. Nominations are open until the March election. There is a minimum requirement of two people for each officer position.

Most of the younger untenured faculty are going with the ORP program as well. The state is asking institutions and use of property tax to raise their contributions to their employees. The committee has also been tracking the Faculty Equity study and awaiting final confirmation of a meeting with the Provost to discuss fund distribution to colleges.

   Policy – Committee Chair Danny Weathers reported that the committee will now work on looking at the Grievance procedures in the Faculty Manual in accordance with state legislation, inserting the Athletic and Academic Oversight Committee to the Faculty Manual, and the compilation of the Graduate Council.

   Research – Committee Chair Dorothy Schmalz reported that Thompson Mefford discussed with the committee how different research incentives are being evaluated across campus. He is working with the Board of Trustees to reintroduce the scholarship dinner. The committee also received updates on the Research Safety Task Force.

   Scholastic Policies- Committee-Chair Jan Holmevik reported that the committee will meet tomorrow (March 15). The committee will mainly focus on Graduate Student forgiveness policy and receiving the same rights to tutoring as undergraduates do. The Graduate Student Government has passed legislation discussing these matters. The committee also is researching the correlation between CU 1000 grades and graduation failure rates. Dean Griffin will be at the meeting to discuss this.

   There was a question and discussion about academic forgiveness.

   Welfare – Committee Chair Katherine Weisensee reported that the committee had a meeting with Denise Anderson to discuss the grant award for 2.7 million dollars. The grant looks at the underrepresentation of women in leadership roles and in applicant pools at Clemson. There is a one-hour program called Tiger Advocates for male faculty to go through a bias training to on March 30th and 31st. NSF has provided funding for this type of training in STEM fields.

Committee Co-Chair Ed De Iulio thanked Fran McGuire and Jeremy King for their assistance with the committee. He showed the list of schools that they researched. He showed that most schools’ surveys had 3-4 tiers for lecturers where Clemson only has two. He showed four AAUP Recommendations. The committee finds that there really is no consistency for these rules across higher education institutions. The committee submitted recommendations and barriers pertaining to rank and structure, governance, and curriculum.

There was a motion to take these recommendations and changes to forwarded to the Policy committee.

There was a call to question. A vote of 29-0-0.

He also announced that three women soccer players (Public Health majors) were awarded an ACC scholarship for graduate studies. Deshaun Watson was an honorary recipient of that award.

c. University Commissions and Committees: CIO Search Committee-The first round of the search concluded in failure. 5. Determine the connection between completion of CU 1000 and graduation rates. (John Griffin and Scholastic Policies Committee)

6. Measure the effectiveness of Community Dialogues on fostering a more diverse, inclusive, and welcoming environment at Clemson University. A research assistant could be assigned for purposes of monitoring effectiveness. (John Griffin and Scholastic Policies Committee, Assessment Committee)

(Provost Office with support of Human Resources)
1. The OIE provide face-to-face diversity and inclusion education and training that addresses and responds to race, gender, LGBTQ, disability, and religion issues as they play out on campus and on the national and international stages.

2. Three entities seemed poised to assume responsibility for delivering, evaluating, and acting upon diversity and inclusion education and training: 1) the OIE itself, 2) an academic institute for leadership and diversity under development at the OIE, and 3) the recently formed committee for diversity and inclusion co-chaired by OIE Director Lee Gill and Provost Bob Jones.

1. We recommend that the OIE establish an organization chart that maps how these entities interrelate and that shows how training results and concerns will be communicated and turned into effective changes.
Future state of Ad Hoc Committee

1. The Faculty Senate ad hoc committee on Diversity and Inclusion should be re-created each year as an ad-hoc committee.

- “All members of the faculty should be eligible to vote in all elections for college and university governance bodies on the basis of one person, one vote.”
“While faculty in contingent appointments may be restricted from participating in the evaluation of tenured and tenured-track faculty, they should have the opportunity to contribute to the evaluation of contingent faculty.”

“Faculty holding contingent appointments should be compensated in a way that takes into consideration the full range of their appointment responsibilities, which should include service.”

Committee
Recommendations
Committee Recommendations

- Rank and Structure:
  - Add third lecturer rank
  - Include mandatory, stated pay increase with promotion similar to TT faculty
  - Adopt Oklahoma State Faculty Salary Survey compensation levels
  - Include NTT faculty in appointment, re-appointment, and promotion committees for NTT faculty
Committee Recommendations

 Governance:
  • Provide full rights, privileges, and responsibilities for delegates in the Faculty Senate
    • Base representation on same type of percentage model currently used for Senators

 Curriculum:
  • Allow FTNTT faculty voting membership at departmental curriculum meetings and potentially at the college and university levels
Rank and Structure Recommendations

- Third lecturer rank
  - Add to FM Part III, E “Special Faculty Ranks”
  - Potential HR implications – job titles?
- Pay increase with promotion
  - Change to FM Part IV, D.2. Salary Determination Procedures – add lecturers and senior lecturers to strengthen
  - Funding
- OSU Faculty Salary Compensation Levels
  - Funding

FM = Faculty Manual
Rank and Structure Recommendations (continued)

• Include NTT in appointment, re-appointment, and promotion committees for NTT faculty

• Delete “departmental Tenure, Promotion, and (Re)appointment (TPR) committee” phrase from FM Part VII, paragraph M titled “Committees Restricted to Regular Faculty as Voting Members”
Governance Recommendations
- Change FM Part II, F. Terminology, 2 Regular faculty
  - Delete first sentence referring to “a subset of the faculty defined in the Constitution of the Faculty.”
  - Add lecturers and senior lecturers to the list of regular faculty

Curriculum Recommendations
- Delete “college and university curriculum committees” phrase from FM Part VII, paragraph M titled “Committees Restricted to Regular Faculty as Voting Members”
Global Solution
Path to Accomplish Recommendations

- Elect lecturers and senior lecturers to the Faculty
- Constitution, Article 1, Section 1 defines the Faculty
  - Includes this phrase in the list of individuals as members “… and such other individuals as the faculty may duly elect.”
  - Election to membership “… must be submitted to the Faculty Senate and referred by that body, with its recommendation, to the faculty for action at the next regular meeting of the faculty. Election to membership shall be by simple majority vote of the members present.”
- Constitution, Article 1, Section 4 states, “The quorum for any meeting of the faculty shall be that number of members deemed necessary by the chair [the Provost] to transact business other than the amendment of this constitution.”
- This approach is not an amendment – faculty already has the right to elect other individuals to the Faculty
