2016 Harriet and Jerry Dempsey Research Conference
Greenville Health System / Clemson University

Date: September 30, 2016
Time: 10:00am – 3:00pm
Location: Medical Staff Auditorium (MSA) and Community Room, 701 Grove Road, Greenville Memorial Hospital, Greenville, SC

Participants: Greenville Health System Clinicians/Managers/Administrators and Medical Students, Clemson University School of Health Research Faculty Scholars and Students

Summary: Through funding from the Harriet and Jerry Dempsey Professorships in bioengineering and industrial engineering, Drs. Dan Simionescu and Kevin Taaffe are hosting a half-day research conference to highlight current work being done in their respective fields as it pertains to the improvement of the delivery of health care. Specifically, work in the biomedical engineering field will be presented in the morning, and perioperative services work related to patient flow/scheduling/staffing and effective implementation and decision making will be presented in the afternoon. Lunch will be provided.

Guest speakers:

- Luke Brewster, MD, PhD, Emory University
- Giovanni Ferrari, PhD, University of Pennsylvania
- Franklin Dexter, MD, PhD, University of Iowa
- Michael Carter, PhD, LEL, FCAE, University of Toronto

Agenda:

10:00am – 10:15am: Welcome Message
10:15am – 10:30am: Biomedical Engineering Research Overview – Dan Simionescu
10:30am – 11:15am: Presentation 1 – Dr. Luke Brewster, MD, PhD, Emory University
11:15am – 12:00pm: Presentation 2 – Dr. Giovanni Ferrari, PhD, University of Pennsylvania
12:00pm – 12:45pm: Lunch (Community Room)
12:45pm – 1:00pm: Perioperative Services Research Overview – Kevin Taaffe
1:00pm – 1:45pm: Presentation 1 – Dr. Franklin Dexter, MD, PhD, University of Iowa
1:45pm – 2:30pm: Presentation 2 – Dr. Michael Carter, PhD, LEL, FCAE, University of Toronto
2:30pm – 3:00pm: Refreshments, Networking and Wrap-up
