Friends and Colleagues of Clemson PRTM:

It is my pleasure to present the 2014-2015 Annual Report of the Department of Parks, Recreation and Tourism Management. One of my duties as Interim Chair is to complete annual evaluations for all faculty. As I was completing that task I was amazed at how productive a group they are. I believe you will share that sentiment as you review this report.

The numbers are remarkable. Our faculty had over 80 journal manuscripts and book chapters published in 2014 -2015 with an additional 48 in press. The average publication rate for our tenure track faculty was approximately four per faculty this year and our faculty generated over $600,000 in funded grants. We had a significant conference presence through the delivery of over 100 presentations across the globe. In addition, PRTM faculty members were involved with 24 Creative Inquiry projects in various stages throughout the 2014/2015 academic year.

We continued our strong international presence, as faculty and students presented their work to a worldwide audience. A sampling of places where PRTM touched down in 2014 – 2015 include: Australia, Vietnam, Denmark, Haiti, Mexico, Turkey, the Czech Republic, South Korea, Canada, Denmark, Belgium, Scotland, Poland, Japan, South Africa, the United Kingdom, and Kenya.

We have also expanded our footprint on campus. The Youth Development Leadership program, one of the leaders in on-line education of professionals serving youth, was merged into PRTM. In addition, the Master’s of Public Administration program is now affiliated with our Department. Both units are excellent additions to our teaching, research, and service mission.

By any metric this was a banner year for PRTM. Our faculty, staff and students continue to expand our influence and excellence on campus, in South Carolina, throughout the United States, and worldwide. We have done that while maintaining our dedication to providing our students the highest level of education possible. Our commitment to our undergraduate and graduate students remains as strong as ever, even while our scope of service expands.

continued.../
This year also was our reaccreditation visit by a team from the Council on Accreditation of Parks, Recreation, Tourism and Related Professions, the accrediting body of the National Recreation and Parks Association. The visit went extremely well and we expect to hear in mid September at the 2015 NRPA Congress, that we are reaccredited for another five year period.

This coming year is a landmark in the history of the Department of Park, Recreation, and Tourism Management (formerly Recreation and Park Administration), as we are celebrating our 50th anniversary as an academic department at Clemson University. The accomplishments reflected in this Annual Report make me confident that we are well-positioned for the next 50 years.

Regards,

Francis McGuire, PhD
Interim Department Chair
