These annuity companies and representatives have met CU's enrollment requirements by being licensed with The SC Department of Insurance and by having 10 or more employees enrolled in payroll deduction for the supplemental retirement plan they represent. The 401k, 457, and 403b plans have met IRS requirements. The University neither endorses nor recommends one investment vehicle over another. Additional companies may be added as space permits in the CU computer system and as long as the companies meet all the requirements which include being able to accept and track employee and employer contributions separately. New additions also require that a company agent be available to complete enrollment paperwork and the CU Request for Reduction in Salary form for annuity transactions.
