Members are requested to be accurate with their tee time reservations and accept staff pairings to fill out groups.
Jessup also reported on the new membership drive and noted that 14 new members have already joined. Jessup reported that the university is also updating the Conference Center/Walker Course websites this fall to better accommodate cell phone use. New information will be added later this fall. Finally, Jessup reminded everyone that foursomes have priority on the course, but you should keep pace with the group in front of you or let the group behind you play through.
