

Dear Students,

Applications are now being accepted for IAESTE United States' 2009 internship placement program. Each year, IAESTE United States connects students in technical fields of study to paid internship opportunities in over 40 countries on six continents. Internships are usually 8 to 12 weeks in length during the summer, but programs can be extended for up to 1 year.

To be eligible to apply for an IAESTE internship, students must be enrolled in a technical field of study (engineering, science, technology, mathematics, architecture, etc.) at a U.S. university, be between the ages of 19 and 30, have at least sophomore level standing, and be a member of IAESTE United States (students can join as part of the application process). Graduate students and non-US citizens are also eligible to apply.

The deadline for students to apply is January 10, 2009. For more information or to access the internship application, please visit www.iaesteunitedstates.org.
