

SUMMER EMPLOYMENT OPPORTUNITY

TILE COUNCIL OF NORTH AMERICA PRODUCT PERFORMANCE TESTING LABORATORY Clemson Research Park Anderson, SC

The Tile Council of North America (TCNA) is a trade association that represents its membership of ceramic tile, adhesives and grout manufacturers, art tile manufacturers and makers of products used to set tile. Companies located in Canada, the United States and Mexico comprise the membership of TCNA. TCNA's Product Performance Testing Laboratory provides raw materials and product testing services to the ceramic tile and natural stone products industries worldwide. Testing is performed following strict procedures provided by ASTM, ANSI and ISO standards organizations. Additionally, custom R&D programs are performed in cooperation with industrial and university groups.

POSITION: Summer Employee—Laboratory Testing Technician

A rising junior or senior is desired. While the position will be full-time during the summer of 2008, the successful summer employee will be considered for part-time employment during the following university terms. A ceramic engineering/materials engineering major is preferred. Hands-on laboratory experience is desirable. A strong mechanical aptitude is required. Applicants must be detail oriented and willing to follow complicated testing instructions carefully and accurately. A working knowledge of Microsoft Word and Excel will be used. Verbal and written skills will be required to prepare clear and concise written and oral test reports for customers. The job requires lifting of up to 50 pounds.
