The Agricultural Service Laboratory will analyze pet treats for customers to obtain a nutrition report. The analyses required by the South Carolina Department of Agriculture are crude fat, crude protein, and acid detergent fiber (ADF). The report will include the total digestible nutrients, energy values, and moisture content. Ash and standard minerals are not included in this requirement.

For additional information and regulations when making and selling pet food, please contact SDCA at 803-734-2035 or visit their website: <https://agriculture.sc.gov/divisions/consumer-protection/feed-safety-compliance/>.

The Agricultural Service Laboratory is a participant in AAFCO's Proficiency Testing Program, a national program for feed testing quality control.
