BECAUSE THE UNIVERSITY RELATIONS ORGANIZATION EXISTS TO PROTECT AND ENHANCE THE CLEMSON UNIVERSITY BRAND by effectively and thoughtfully sharing what we know and love about Clemson University with the world, we are committed to being a valued-added University resource that provides strategic and creative solutions that help tell the great Clemson story in a manner consistent with the University’s goals and core values.

The process to create a comprehensive University Relations strategic plan began nearly a year ago with an analysis of feedback from across the University regarding the perceptions and role of University Relations. From there, every member of the University Relations organization has had a voice in the creation of the plan — from the establishment of the organization’s vision, mission and core values through the initial set of goals and performance targets presented in the plan.

The guiding principles for our work on the strategic plan are straightforward and are directly aligned with the University’s larger goals:

- Support Clemson’s Top-20 vision by enhancing academic reputation.
- Align with ClemsonForward; communicate progress and success.
- Protect and strengthen the Clemson brand.
- Strengthen University Relations’ role as a universitywide communications/marketing resource.

The plan comprises five sets of core strategies and goals, all designed to support Clemson’s vision of becoming a perennial top-20 national public university as determined by U.S. News & World Report. They are:

- Building the right team and creating the right culture.
- Defining and developing the Clemson brand and managing our reputation.
- Building Clemson’s national academic reputation.
- Recruiting and retaining top students.
- Engaging family, friends and funders.

The plan’s framework is designed to guide University Relations’ work and evolution over the next few years, and will be updated annually. Each core strategy includes multiple goals, along with concrete success targets for the current academic year. Each strategic goal has a designated “owner” and progress will be tracked and reported at regular intervals to ensure accountability.

This plan will be University Relations’ guiding document as we help lead Clemson to a perennial place among the nation’s top-20 national public universities and as we strive to build a best-in-class communications and marketing organization on behalf of the University and its stakeholders.
VISION STATEMENT

Clemson University will be one of the nation’s top-20 public universities.

MISSION STATEMENT

Clemson University was established to fulfill our founder’s vision of “a high seminary of learning” to develop “the material resources of the State” for the people of South Carolina. Nurtured by an abiding land-grant commitment, Clemson has emerged as a research university with a global vision. Our primary purpose is educating undergraduate and graduate students to think deeply about and engage in the social, scientific, economic and professional challenges of our times. The foundation of this mission is the generation, preservation, communication and application of knowledge. The University also is committed to the personal growth of the individual and promotes an environment of good decision making, healthy and ethical lifestyles, and tolerance and respect for others. Our distinctive character is shaped by a legacy of service, collaboration and fellowship forged from and renewed by the spirit of Thomas Green Clemson’s covenant.

STRATEGIC PRIORITIES

Clemson will be nationally recognized as a leader in:

• **Research:** consistently categorized among institutions with the highest level of research activity
• **Engagement:** encompassing student engagement, community outreach and public-private partnerships
• **The academic core:** perennially ranked among the nation’s top public universities
• **The living environment:** an outstanding place to live, learn and work
