IN-SERVICE TRAINING

Weed science in-service training will be offered for South Carolina county Extension Agents and Certified Crop Advisors (CCA's) during January 2006. Two sessions will be conducted to facilitate attendance of all county agents and CCA's. Training will be offered for new weed control resources, glyphosate-resistance management, Roundup Ready Flex cotton varieties and systems. Also weed management in peanut, soybean, pastures, and wildlife plots will be discussed. The sessions will be held at the Pee Dee Research and Education Center near Florence on January 12, 2006 from 9:00 am – 3:30 pm and at the Edisto Research and Education Center near Blackville on January 19, 2006 from 9:00 am – 3:30 pm. Please fill out the registration sheet on page two of this newsletter and send to Dr. Chris Main, 2200 Pocket Road, Florence, SC 29506, or register electronically at [registration.pdf](#).

ROUNDUP (GLYPHOSATE) RESISTANCE MANAGEMENT

Information concerning management and prevention of glyphosate-resistant weeds in Roundup Ready cotton is available at <http://www.clemson.edu/weeds/rrcotton.pdf>. This information will be presented during winter meetings and remain available on the web as a reference resource.

SOUTH CAROLINA WEED MANAGEMENT GUIDE

A new weed management guide has been created for producers in South Carolina. Currently it is available on the web at <http://www.clemson.edu/weeds/GUIDES.htm>. The printed manual version is in press and will be available after January 1, 2006. If requesting this guide, please refer to publication number EC 711.

2005 WEED SCIENCE RESEARCH REPORT

Weed science research conducted during 2005 is available to view at <http://www.clemson.edu/weeds/05wsreport.pdf>. This report contains data for studies conducted at the Pee Dee REC in cotton and peanuts.
