Say No to cramming. Study some every day.

Be healthy. Never underestimate the value of healthy eating & getting enough sleep.

My name is Rayniece Pinckney and I am a junior, majoring in Psychology. I have really overcome the obstacle of being on probation. I was notified that I was on probation after first semester of my freshman year. I couldn't believe it! I was a straight A student in high school. The transition from high school to college was very difficult because I wasn't used to having to actually study or do work. Also I was on probation because I procrastinated, crammed for tests, and I also partied a lot. So after being on probation I knew that I was better than what my situation was. So starting the next semester I got a planner, signed up for Tiger Success, started meeting with the professors, started going to tutoring on the 5th floor of the library, and also attended SI. The results of my effort really paid off because I was off of probation after my second semester, my GPA is so high that you wouldn't believe that I was actually ever on probation. So I just want to encourage everyone to find help and not be ashamed about being on probation because it doesn't mean that you aren't smart, but merely that you need different strategies from what you were used to in high school. So please don't be discouraged because if I can do it then everyone can. So please utilize all the services that Clemson offers us because it really makes a difference, so aim for getting off probation so that you can say that you overcame probation, rather than probation overcame you.
