Keep in mind that while you are moving to Clemson for an extended period of time, this is not the full move that you’ll make in August. Try not to bring more than you’ll need for the 6 weeks because you’ll have to move it out and back again. If your fall assignment is ready as of August 4th, housing will permit you to place your belongings inside before going home. Housing will not notify us which rooms will be ready until after Summer II move in.
