Course Description: This is a full semester course designed to help students develop their “soft skills” for working in a business environment. Soft skills are sometimes defined as “people skills” or “social skills, whereas your technical skills you are learning in business courses are considered “hard skills”. Some soft skills students should improve with this course include: Communication (oral and written), Teamwork, Adaptability, Problem Solving, Critical Thinking, Career preparation.

Clemson Thinks2 (CT2): This class is participating in the CT2 campus-wide Quality Enhancement Plan that focuses on undergraduate critical thinking, a skill that is invaluable for your success in your career after graduation as well as while you are in college.

- Critical thinking is the process of making fair-minded, reflective, well-reasoned judgements about what to believe and what to do (Measured Reasons, LLC, 2018).
- This requires meta-cognition, meaning to reflect on your own thinking. We all have ability to critical think, but as anything we can work to develop this skill further by using it every day. Class discussions you will use the 5-Step Critical Thinking process.
- To understand your level of Critical Thinking and to see if you have improved over the semester, you will take the California Critical Thinking Skills Assessment at both beginning and end of course.

Class Time/Location: This is a hybrid course ...we do not always meet in the classroom.

- Acct 2900, Sect 1 – MW(☞) 9:05 am – 9:55 am, Serrine 310.
- Friday – most Fridays are reserved for compensatory time for your out of class exercises...see schedule.
