Bachelor’s to Graduate – A faster way to earn your advanced degree.

Enterprising undergraduate students might want to fast-track their graduate degree. Clemson offers combined degree plans in several majors, allowing you to reduce the time typically needed to earn both degrees. There are more than 30 eligible tracks.

clemson.edu/graduate/academics/fasttrack.html

Your choice. Your future.

Clemson offers 80+ undergraduate degree programs. You can dual major, major-minor, select concentrations and obtain professional certifications within a rigorous core curriculum.

Each path to your career goal is unique. At Clemson, you can explore every option, receive local and online mentoring, connect with companies that have hired our grads and find out what graduate schools fit you.

Get focused

Become even more focused within your major by exploring Clemson concentrations and emphasis areas at clemson.edu/degrees.

Get ready for Clemson.

Transferring to one of the nation’s Top 25 public universities means diving into cutting-edge research, prestigious academic programs and lifelong connections with people who inspire you.

Come here to learn. Leave ready to make an impact.

Not sure what you want to study? The Center for Career and Professional Development matches your talents and interests with internships, networking opportunities and real-world experiences — all designed to help students land that first job, pursue graduate programs and more.
Clemson University is designated a Carnegie R1 research institution and offers state-of-the-art facilities to learn, grow and live.

### Get creative.
Creative Inquiry (CI) defines undergraduate research at Clemson. Starting freshman year, students are empowered by faculty mentors to take ownership of cross-disciplinary, team-based investigations and make an impact on 21st-century challenges.

At the end of a CI, participants often find themselves traveling internationally or presenting their research at national conferences — fielding questions in front of both professors and industry professionals.

### Take a broad approach.
Clemson offers more than on-campus opportunities. Here, you can experience what it’s like to live, work and study around the globe through faculty-led, third-party or exchange programs and Clemson’s study abroad program.

### Get ahead.

#### Center for Career and Professional Development
Get a jumpstart on your career goals. The Princeton Review ranks Clemson No. 2 for "Best Career Services Programs" and No. 7 "Best Schools for Internships" because we partner with a variety of industry employers to provide relevant internship and cooperative education opportunities.

A popular option is the UPIC program, which offers paid, on-campus internships working alongside faculty and staff while earning course credit.

#### Class of 1956 Academic Success Center (ASC)
Located at the heart of campus near the Cooper Library and the Watt Family Innovation Center, the ASC helps students significantly improve their grades and maintain their academic scholarships through a better understanding of difficult class material. The free services available here include Peer-Assisted Learning, academic coaching and tutoring. Students also seek out the ASC for success strategy workshops and quiet study group areas.

College is more than classes, exams and grade point averages. It’s about the relationships you will build, the friendships you will make and the experiences that will define you. And Clemson is a great place to start.

**Live it up.**
Clemson is nestled on 1,400 beautiful acres in the foothills of the Blue Ridge Mountains, along the shores of Lake Hartwell. We’re next door to the South Carolina Botanical Garden and maintain the 17,500-acre Clemson Experimental Forest. Hike, bike or swim your way to the best study breaks anywhere.

**Head out.**
Clemson boasts 19 NCAA athletic teams. Admission to regular-season events played on campus is included in University fees for full-time students, including football, basketball, soccer, baseball, cross country, track and field, golf, volleyball, tennis and rowing.

**Get involved.**
There are more than 500 student clubs and organizations on campus from fraternities and sororities to international groups, military organizations, religious, service, sports, fitness, performing arts and much more. Find one that fits you or start your own!

**Play hard.**
There are more than 500 student clubs and organizations on campus from fraternities and sororities to international groups, military organizations, religious, service, sports, fitness, performing arts and much more. Find one that fits you or start your own!

**Explore.**
Campus is great, but many of our students find that their favorite spots to relax are off campus. Downtown Clemson is full of dining options from pizza to sushi, and the shopping ranges from boutique to game-day gear. Just 30 minutes away is Greenville with one of the fastest-growing downtowns in the country and a piece of the University — Experience Clemson — right in the heart of the city.

**Get involved.**
There are more than 500 student clubs and organizations on campus from fraternities and sororities to international groups, military organizations, religious, service, sports, fitness, performing arts and much more. Find one that fits you or start your own!

**Live it up.**
All of Clemson’s 22 residence halls and five apartment complexes are within a 10- to 15-minute walk to class. Don’t forget to check out our 17 nationally recognized Living-Learning Communities, including the Transfer Residential Community, which offers both academic support and opportunities for social engagement for new transfer students.

89% of students would still choose Clemson if they could do college all over again.
There when you need us.

When it comes to your transfer to Clemson, we want to give you all the tools needed to succeed in the classroom, on campus and after graduation. In addition to the many programs offered to all students, transfer students enjoy a few that make their transition a simpler one.

**Transfer Residential Community**
The Transfer Residential Community is a Living-Learning Community for new transfer students housed in McCabe Hall on Clemson’s campus. Together, students participate in academic support programs and community-service projects each semester.

**Transfer Council and Undergraduate Student Government**
Transfer Council is part of Clemson’s Undergraduate Student Government. All members of Transfer Council transferred into Clemson, and they have a unique perspective on what new transfer students face. Transfer Council works to promote support programs for transfer students and provides a representative voice for the transfer student population on campus.

**CU 1000**
CU 1000 is a zero-credit, pass/no pass course that all new Clemson students are required to complete during their first semester of enrollment. The purpose of CU 1000 is to introduce new students to Clemson’s student success resources and community standards and values. CU 1000 is a hybrid course — some modules are completed online, while others require in-person attendance. Course assignments are completed and submitted in Canvas, Clemson’s online learning management system.

**PEER**
For more than 20 years, Programs for Educational Enrichment and Retention (PEER) has offered an award-winning approach to student support — one that gives underrepresented students in the College of Engineering, Computing and Applied Sciences a place to discover academic and professional success. PEER helps students develop the skills they’ll need to be excellent engineering, computing and science majors. Effective study skills, mentoring, time-management techniques, career planning and insights from current, successful undergraduates are all available through PEER.

**WISE**
Research shows that girls are much more likely to pursue Science, Technology, Engineering and Mathematics (STEM) occupations if they see and spend time with other women who have been successful in those fields. Women in Science and Engineering (WISE) provides programs and services that put female STEM students in touch with other female STEM majors or other women in their field of study.

**FIRST Program**
There are more than 2,000 first-generation college students at Clemson, and the FIRST program helps ensure success for students who are the first in their family to attend college with mentors, study halls, tutoring, guest speakers and workshops for college success, as well as a student lounge, social activities and off-campus excursions.
To improve your chance for admission, you should:

- Complete a year of college study — after high school graduation — earning 30 semester hours or 45 quarter hours of transferable credit. Advanced Placement, International Baccalaureate and dual enrollment credit may not be used to count toward the 30 semester hours (45 quarter hours) requirement.
- Note: Consideration for transfer with fewer than 30 semester hours (45 quarter hours) is possible, but the applicant must also submit high school transcript and test scores (SAT or ACT). High school performance will be reviewed first, and a strong high school GPA, class rank and standardized test score are necessary. College academic performance is also required and will be reviewed, in addition to high school information. Students must meet freshman admission requirements.
- Earn a cumulative grade point average of 2.5 or higher on a 4.0 scale — 3.0 preferred.
- Complete freshman-level courses in preferred.
- GPA of 2.5 or higher on a 4.0 scale — 3.0 preferred.
- Complete freshman-level courses in preferred.

Apply yourself.

Transfer admission is becoming increasingly more competitive. Below are a few guidelines to get you started:

- Have your official college transcripts from each previous institution attended sent directly to Clemson University, Office of Undergraduate Admissions, 105 Sikes Hall, 29634-5124.
- If you took college courses while in high school (dual enrollment credit), be sure to send your official transcript from the institution(s) where you earned credit.
- Please provide a complete list of your educational history, naming each college or institution you have previously attended in chronological order. This should include each school in which you were previously enrolled, regardless of whether or not you expect to receive credit for the courses or if you withdrew prior to receiving final grades.
- Be prepared to select different first and second choices of majors. Do not list the same major twice.
- Have your credit card or debit card readily available to pay the application fee online when you submit your application. Clemson accepts all major credit cards.
- Be sure to submit the application online only. Do not send in a printed version of the online form.
- If you do not receive an email confirmation within a week of submitting an online application, or if you have trouble in a printed version of the online form, please call the Office of Admissions for assistance.

Transferring Credits from Another Institution

Courses that have previously transferred to Clemson University can be viewed on the TCEL (Transfer Course Equivalency List) available on our website. The TCEL contains Clemson University course equivalencies for approximately 1,200 accredited colleges and universities nationwide. Please be advised the TCEL is only a history of how courses have transferred to Clemson and does not represent a comprehensive list of transferable coursework for any school.

If there is a course that is not showing a Clemson equivalency on the TCEL, it will be evaluated by the Office of Admissions upon acceptance. Follow the curriculum outline in Clemson's Undergraduate Catalog for the degree that you plan to pursue, and take the equivalent courses listed on the TCEL. For specific questions regarding your intended major at Clemson University, speak with a faculty adviser by choosing from the Advisers List by subject area, located at clemson.edu/admissions/tcel.

Generally, transfer credits are applicable toward degree requirements if the courses taken are:
- Earned at a school accredited by a regional accreditation association, such as the Southern Association of Colleges and Schools.
- Similar in description to the corresponding course at Clemson.
- Required or permitted as an elective in a student’s curriculum.
- Graded at least a “C” or better.
- Not a duplication of credits already earned.

Note: No course taken at a non-baccalaureate degree institution may be used as an equivalent or substitute for any 300- or 400-level Clemson course.

Some resource links:
- Clemson’s Undergraduate Course Catalog
- AP/IB credits

There are specific majors at Clemson that, due to grade point average requirements and/or enrollment limitations, are more competitive. Students interested in the following majors will need to select a second choice of major when applying to allow more flexibility in the review process.

When applying to transfer into Clemson, you should:

- Submit an online application.
- Request final official transcripts be sent to the Office of Undergraduate Admissions from each college or university previously attended. You must submit official transcripts even if you do not expect to receive credit for the work or if you withdrew prior to receiving final grades.
- Note: If you have been provisionally accepted, you must also arrange for Clemson to receive updated transcripts for any additional work you complete.
- A transcript that states “issued to student” is not considered official.
- If you took college-level courses (dual enrollment) while in high school, be sure to send official transcripts from the institution where credit was earned.

Additional Requirements for Select Majors

PGA Golf Management: Applicants must demonstrate evidence of a playing proficiency reflected in a handicap of 8 or better. Each student’s handicap must be verified by a member of the PGA or by a high school golf coach. For more information, visit clemson.edu/golf.

Performing Arts: An audition is required for students interested in pursuing audio technology, music or theatre concentrations. For more information, visit clemson.edu/cas/departments/performing-arts/index.html.
Financial Aid

Financial aid is usually awarded based on need to supplement the amount you and your parents can contribute to your college expenses. The University also awards some scholarships based entirely on academic merit.

Clemson offers financial aid in the following forms:
- Grants
- Scholarships
- Loans
- Part-time employment

Legislative Incentives for Future Excellence (LIFE) Scholarships
The LIFE scholarship is valued at $5,000 per year. This is a renewable scholarship for residents of South Carolina who are enrolled full-time. Awards are made automatically; no scholarship application is required.

LIFE Eligibility Requirements for Transfer Students
To receive the LIFE scholarship, you must meet all general eligibility requirements. Eligibility for the first year at Clemson is based on your initial college enrollment and the cumulative GPA and hours earned (nonremedial) at your previous institution(s). This will include both in-state and out-of-state institutions. After your first year at Clemson, all the requirements for continuing students will apply.

Questions about financial aid?
Talk with a member of our staff. Office hours are 8 a.m. to 4:30 p.m., Monday through Friday. Email finaid@clemson.edu or call 864-656-2280.

* Assumes health and other mandatory fees (required for all full-time students) and average lab fees. Major enrichment fees apply to some majors and can range up to $2,500.

** All students are required to own a laptop computer. For details, go to clemson.edu/laptop.
Find Your Way.

Transfer Application Timeline
Transfer applications are reviewed on a rolling basis as they become complete. Admission is closed when all classroom space has been committed.

**December 1**
Deadline to apply for Spring admission (January enrollment).*

**March 1**
Deadline to submit the FAFSA for need-based scholarships for the Fall semester.

**April 1**
Deadline to submit the FAFSA for loans and grants for the Fall semester.

**July 1**
Final deadline to apply for Fall admission.

*All official documents (except those for your current term) must be postmarked by December 15.

Note: Transfer students who wish to apply for Maymester or Summer Sessions should submit their application at least two weeks before classes begin.
