Rosetta Stone Guidelines

The Office of Student Enrichment wants to give every College of Business undergraduate student the opportunity to learn a language. Rosetta Stone is in high demand, and there typically is a wait list of students interested in learning a language. Therefore, parameters have been put in place to ensure registrants are fully utilizing the software and everyone is given maximum opportunity to access Rosetta Stone. In order to receive access to the Rosetta Stone software for the entire semester requested, all users are to follow the expectations outlined below.

Users are expected to:

- Log in within 2 weeks of the registration e-mail and be actively engaged having recorded activity time. Read the details here regarding actual recorded time.
- Fully participate, being active monthly.
- Utilize the software for at least 2 hours each month.

*If the above does not occur, your account will be deactivated* and a student on our waitlist will be assigned to use Rosetta Stone.

Please email enrich@clemson.edu if you have any questions or concerns about these guidelines.

Thank you for your understanding and cooperation.
