CAAAM Site Analysis

12

Site Analysis Large Scale

Single Family Housing
Multi Family Housing
Government Facilities
Site Buildings
Roadway and Parking

Notable Information
The site is located on a topographical highpoint between three arterial roadways: Tiger Blvd., Anderson Highway and Old Greenville Highway.

The surrounding population is primarily student housing for surrounding colleges, as well as older African Americans. The area has been heavily gentrified.

Site Analysis Small Scale

Single Family Housing
Multi Family Housing
Government Facilities
Site Buildings
Roadway and Parking

Notable Information
Building is utilized by a variety of groups, including children's school. Circulation points surround building.

Viewshed of sky and trees looking West.

Water Tower interrupts sense of scale.

Highpoints in the surrounding area, hold minimum water level, lack deep shade, etc.
