ASSISTED LIVING
COMMUNITY AGING WELLNESS VARIETY COMFORT

A community focused center for interaction and care in the Greenville, South Carolina West End District. This center focuses on user variety and community interaction by allowing strong connections to the up-and-coming South Main Street.

The building focuses not only on the utmost in assisted living accommodations, but also incorporates several innovation possibilities allowing for everyday interaction with Greenville citizens.

The building’s atrium space connects straight through the site, bridging existing conditions with new opportunities. The diagonal organization allows for the building to uniquely address the prominent main street corner, and encourage pedestrian traffic inside and through the facility.

Views to the historic church north of the site are uninterrupted, as the building’s apartment towers interact suddenly with the site. Opportunities for views and social settings are abundant, as a variety of intimate or expansive settings allow for many types of daily activities and wellness.
