NOTES

Study abroad of at least one semester at a degree providing institution in the target language setting is mandatory. In addition, each student is required to complete an internship with an international company in the United States or a summer internship with a company abroad. These internships provide students the opportunity to apply classroom learning to the business/industrial work place. Internships are subject to approval by the Language and International Business director. In addition to the curriculum requirements below, students are required, as a condition of graduation, to pass a noncredit language examination and submit a noncredit senior dossier to assess their language competence in various areas. Both assessments take place in the student’s last full semester at the University.
