

July 14, 2022, EREC Watermelon Field Day

A Watermelon Field Day will be held at the Edisto Research and Education Center in Blackville, SC on July 14. The field day will begin with registration at 8:00 a.m. at the office complex at EREC. At 8:15 a.m. an indoor session will be held in the EREC auditorium.

Indoor Program Topics include:

Watermelon Herbicides	-	Matt Cutulle
Tebuconazole Resistance	-	Toy Keinath
Contract Pollination for Cucurbits	-	Ben Powell

Following the indoor sessions (10:00 a.m.) we will go to the field to look at research projects and variety trials and continue discussions.

The field research tours will include:

CU Weather Station Demo	-	Christopher Thomas
SAR and Bio-stimulant Test	-	Richard Royal
Anaerobic Soil Disinfestation (ASD)	-	Team ASD
Field Day Melon Trials	-	73 Varieties

Pesticide License credits will be offered.

Following the field tour, we will return to the EREC office complex for lunch, and further discussion.

The Edisto Research and Education Center is located at 64 Research Road, Blackville, SC 29817. EREC - (803) 284-3343. <https://www.clemson.edu/cafls/research/edisto/>
