METER BENEFITS

• Simplification of metered parking using customer-friendly technology that is reliable and easy to use

• Wireless communications and real-time, on-line credit card authorizations

• Convenient payment options

• A more aesthetic campus appearance that reduces the clutter of old single-space meters

• Multiple language capability (press “language” button for English or Spanish)

• Reduced maintenance and collection frequency

• Solar-powered meters keep with the sustainability goals of the University and the President’s Commission on Sustainability

Please forward any questions or comments to parking@clemson.edu or call 864-656-2270.

HOW DO I OPERATE A METER?

1. Press the GREEN button to begin.
2. Enter your space number and press #. Press * to backspace.
3. Insert cash (quarters, dollar coins, $1 bills) OR credit card. For credit card, press BLUE “MAX” button for three-hour limit or the “ADD TIME” button to add time in five-minute increments.
4. Press the GREEN button to print receipt.
5. Retain receipt as proof of purchase.

PAY-BY-SPACE PARKING

1. Press the GREEN button to begin.
2. Enter your space number followed by #. Use * to backspace.
3. Insert cash (quarters, dollar coins, $1 bills) OR credit card. For credit card, press BLUE “MAX” OR “ADD TIME” button.
4. Press the GREEN button to print receipt.
5. Retain receipt as proof of purchase.

Monday - Sunday 7a.m. - 10 p.m.

Please call PTS at 864-656-2270 to report a meter that is malfunctioning.
NEW MULTI-SPACE PAY STATIONS
During the summer of 2012, Clemson University’s Department of Parking and Transportation Services (PTS) realigned and reapportioned the existing supply of “visitor” and “Clemson University permit” metered parking spaces. This resulted in 125 aging, single-space parking meters, along with 63 meter poles, being removed and replaced with nine new solar-powered “Pay-by-Space” multi-space pay stations. With these easy to use pay stations, users can pay with convenient payment options such as cash, coin or credit card. The pay stations not only enhance the campus landscape through a reduction in the number of single-space meters but will provide visitors and Clemson University permit holders (CUPH) with a smart, cost-efficient parking solution that is more sustainable, reliable and convenient.

PARKING SERVICES
Parking and Transportation Services (PTS) is committed to providing parking services in a timely and cost-efficient manner to avoid wasteful allocation of resources. PTS has also aligned its mission with the University’s sustainability goals: specifically, to reduce campuswide emissions. The pay stations reinforce the collaboration between the University and PTS’ commitment to excellence and support of these important University goals.

PARKING HOURS
Visitors and Clemson University permit holders may pay to park in the designated multi-space metered areas under these guidelines:

Hours of Operation – 7 a.m.–10 p.m., seven days per week
Visitors – No Permit Required “Three-Hour Visitor Meter Limit”
CUPH – Park for the “One-Hour CU Permit Limit” or as Otherwise Posted

PARK HERE
Visitors and CUPH can use the solar-powered, “Pay-by-Space” multi-space pay stations located at one of five convenient parking lot locations:

- Hendrix Student Center
- Heisman Street
- Sikes Lot
- Union Street near Edgar Brown Union
- Clemson House

Note your space number, then proceed to the multi-space pay station and purchase the amount of time you need.

PTS is also “piloting” parking space sensor technology that has been installed in designated parking spaces. The sensors are integrated with a parking application for your phone. Download the free “Parker” application: streetline.com/find-parking/parker-mobile for your smart phone and easily find and be guided (with Google maps or through voice guidance) to an available metered parking space on campus. (Note: Since this is in the pilot phase, it is available for the Hendrix Student Center metered lot only at this time.)

FINDING ON-CAMPUS PAY STATIONS
Use our online parking map to find metered locations or use the “Parker” mobile application to provide turn-by-turn directions to a metered lot (Hendrix lot only). Each of the metered lots has specific signage that identifies the metered spaces as well as the location of where to pay the meter. These regulatory signs specify the hours of operation, meter limits and directions on how to pay the multi-space pay station to park. To locate the pay station in the parking area, look for the white “P” on the side of a pay station and the black, bronze and white “Pay Meter Here” signs that will direct you to “Pay-by-Space.”

HOW TO PAY
Once you park in a metered space, there are a few brief steps to take in order to pay for your space:

- Note your space number
- Look for the “Pay Here” signs to locate the pay station
- Pay the meter after entering your space number
- Take your receipt as proof of purchase
- Please pay for all time needed, as you cannot add time to a purchase once a receipt is issued

All metered parking spaces are numbered, i.e., “Metered 12,” and cost $1 per hour to park. Please follow all permit rules regarding time allowed to park in a metered space.

When paying for your parking space, you can pay through a variety of convenient and flexible methods:

- Quarters
- $1 Coins (change will not be given, one-hour minimum)
- $1 Bills (change will not be given, one-hour minimum)
- Credit and Debit Cards ($1 minimum for cards)

NOTE: TigerOne Card and “Pay-by-Cell” phone options are coming soon.

Once you have completed your transaction at a meter, a receipt will be printed which serves as your proof of purchase.
