Amazing camp working with hearing impaired campers in FL; Wonderful camp, lead by a hearing impaired director---she is amazing! Seeking students to work in a camp environment with those who have special needs, I have many positions open, primary needs Counselors (males especially), counselors with special talents that can double as group leaders is fantastic, but not required. We are only a month long that includes training. The pay is nominal, the experiences is unbeatable. the drawback is we are in Florida, but North Florida, If hours for practicum, or internship are needed I can and will also assist with those.
