

DISTINGUISHED SPEAKER SERIES

“Bone Biomechanics and Pathology in Sickle-Cell Diseases”

Gilda Barabino is the Dean of the Grove School of Engineering at the City College of New York. Dr. Barabino consults nationally and internationally on STEM education and research, diversity in higher education, policy, workforce development and faculty development. This review discusses the characterization of the biomechanical properties of sickle RBCs and sickle blood as well as their implications toward a better understanding of the pathophysiology of the disease.

April 11

3:30-4:45 p.m.

Watt Family Innovation Center Auditorium
