CLEMSON UNIVERSITY – CHEMICAL AND BIOMOLECULAR ENGINEERING

The Department of Chemical and Biomolecular Engineering at Clemson University invites applications for a tenure-track faculty appointment, which can be at any level commensurate with the candidate’s experience and achievements. Individuals with outstanding potential and scholarly interests in all areas of Chemical and Biomolecular Engineering are sought. Candidates must have earned a Ph.D. in Chemical Engineering or a closely related field, and those with industrial experience are encouraged to apply.

To apply, please upload a cover letter highlighting relevant research, teaching, and service to-date, curriculum vitae, detailed research plan, statement of teaching philosophy and interests, and the names and contact information for at least three references to http://apply.interfolio.com/68964. The anticipated start date is August 15, 2020. Applications received by October 27, 2019 will receive full consideration, with the review process continuing until the position is filled.

Clemson University is ranked as a Very High Research University by Carnegie (R1 university) and is located on the shores of Lake Hartwell in the foothills of the Blue Ridge Mountains. We enroll nearly 24,000 students, including over 5,000 ethnic minorities and 1,500 international students. Exceptional scholars who can contribute to the diversity and excellence of our academic community through research, teaching, and service are strongly encouraged to apply. Information about the department is available at www.clemson.edu/cecas/departments/chbe. Clemson University is an AA/EEO employer and does not discriminate against any person or group on the basis of age, color, disability, gender, pregnancy, national origin, race, religion, sexual orientation, veteran status or genetic information.
