It should be understood this procedure is intended to provide a reasonable and consistent method for dealing with the type of behavior that can be disruptive to a program/activity but is not so egregious as to warrant immediate dismissal from the program/activity. It in no way precludes immediate dismissal from the program/activity for more serious disciplinary problems or violations of campus or program/activity regulations. A serious disciplinary problem is defined as one in which the program/activity staff determines that a child is engaging in inappropriate behavior that includes, but is not limited to the following: actions which put the participant, other participants, or program staff member's safety in jeopardy; emotional, or electronic harassment/harm against self, program staff or fellow program/activity participants; consistently disrupting the program/activity; sexual harassment; or behavior that is serious enough to warrant a third offense.
