

CYBERSECURITY MINOR

PATHWAY I

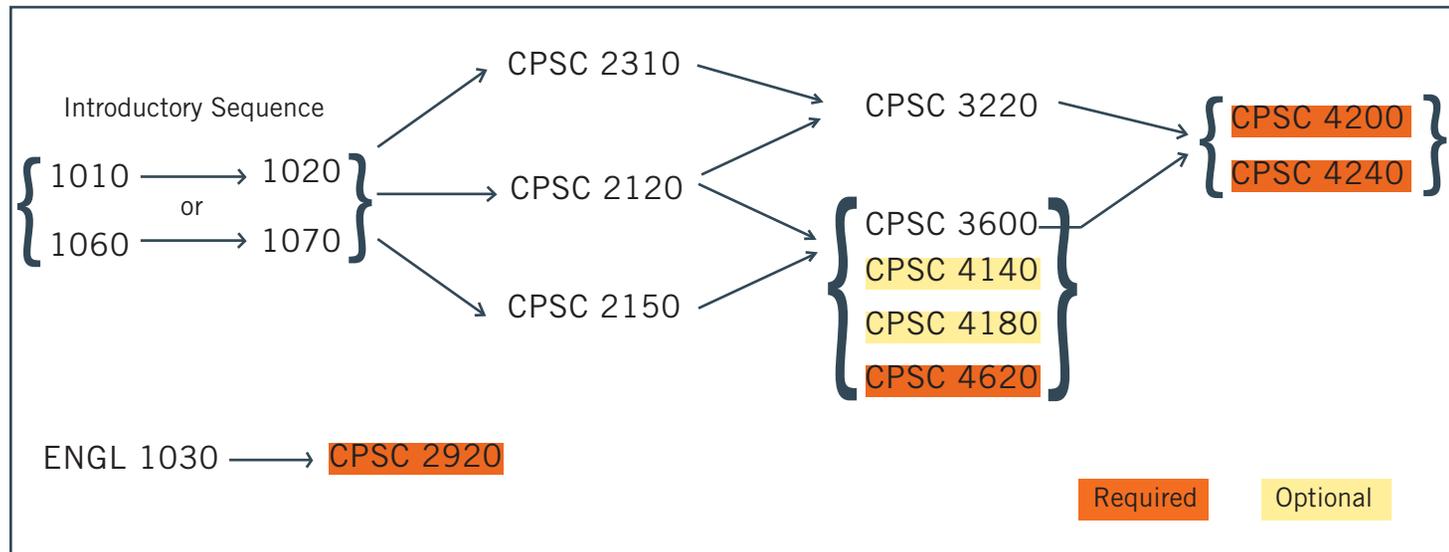

Clemson University's Cybersecurity Center is excited to announce a new Cybersecurity Minor, which combines rigorous technical courses with the option to take relevant courses in other departments. School of Computing majors will benefit from a Cybersecurity minor via a deeper examination of cybersecurity topics. While two pathways exist to obtain the minor, most BS-CS, BA-CS*, and BS-CIS majors would opt for a Pathway I.

Pathway 1: CPSC 2920; CPSC 4200; CPSC 4240; CPSC 4620; and one additional course from the cybersecurity list

Pathway 2: CPSC 4200; CPSC 4620; ECE 4490; ECE 4491; {ECE 4380 or ECE 4400},
and one additional course from the cybersecurity list

Cybersecurity list: CPSC 2920; CPSC 4140; CPSC 4180; CPSC 4200; CPSC 4240; CPSC 4620; ECE 4270; ECE 4380; ECE 4400; ECE 4490-4491; ECE 4550; ECON 4220; MATH 2190; MATH 4100; MGT 3180; MGT 4360; MGT 4540; MGT 4550

Prerequisite Chain for CPSC-Prefixed Courses on the Cybersecurity List

* In programs that require a minor, courses may not be used to fulfill both the major and minor requirements. Only courses that are outside the major's subject code may be used to fulfill minor requirements in programs where a minor is required. See your academic advisor for more details.
