Registration

Once accepted to Clemson University as a transient student, you will be emailed information on registration, including your Clemson University ID Number, userid and password.

Summer registration for transient students begins April 17.

You will be cleared to register for classes by signing into Clemson's iROAR student information system at <https://iroar.clemson.edu> (Student > Registration > Add or Drop Classes)

Please refer to the training resources for student registration found here: <https://www.clemson.edu/registrar/student-menu/registration/>

The ECE Department can assist you in registering for our courses after you receive your Clemson Student ID number. Please contact ECE registration coordinator Alyssa Accuosti, at aaccuos@clemson.edu for help enrolling in specific ECE courses.

Please note: Transient students should work with their home institutions *before* enrolling in Clemson courses to verify that course credit will transfer. It is incumbent on the student to ensure they have the background coursework to successfully complete their online classes at Clemson. We do not verify course prerequisites for transient students.

- No students will be added to an online ECE course after the last day to add a class.
- No students taking online summer courses may be dropped after the official published last date to drop a course. See the academic calendar for these dates: <https://www.clemson.edu/registrar/academic-calendars/>
- Tuition refunds will be given only according to the published refund schedule on the Clemson Student Financial Services website: <https://www.clemson.edu/finance/student-financials/refunds/> (This happens quickly for summer courses!)
- Summer Courses are enrollment dependent and may be canceled due to insufficient enrollment.
- Students should be prepared to meet their course's proctor requirements as stated in the individual course syllabus. Some instructors will be using video proctoring through Respondus. In such cases, a Respondus-compatible webcam and microphone are required. It is a Clemson ECE policy that students taking online ECE classes at the time of taking the courses reside within 3 time zones of the Eastern US time zone.
- If you are enrolled in a Summer Session course, you must start checking your Clemson email account regularly and log in to the course in the Canvas system ASAP (by the first day of class) if you have not done so already. Many instructors require confirmation of your participation no later than the first day of class. Review the information you received from the registrar's office when you were accepted as a transient student on how to set-up your Clemson username and password.
