

ENGINEERING DUAL EDUCATION

DUAL ENROLLMENT AT CLEMSON UNIVERSITY

ENGINEERING DUAL EDUCATION WITH PARTNERING SCHOOLS

Dual Education programs allow students to begin their academic career by pursuing a Bachelor's degree at a partner institution while preparing for an Engineering degree from Clemson University. Students enroll in a prearranged three-year liberal-arts or science program consisting of at least 90 hours of course credit prior to transferring to Clemson. During this time, they supplement their program with courses required for the BS degree in Engineering. After three years, successful students may transfer to Clemson to complete the degree requirements for one of Clemson's 10 Engineering Bachelor's degrees. Upon completion of the Engineering degree at Clemson, students are awarded a BS degree in their Engineering major from Clemson, and a BA or BS degree from Anderson University.

CLEMSON ENGINEERING DEGREES

Bioengineering	Electrical Engineering
Biosystems Engineering	Environmental Engineering
Chemical Engineering	Industrial Engineering
Civil Engineering	Materials Science and Engineering
Computer Engineering	Mechanical Engineering
