

Transfer Agreement between Spartanburg Community College & Clemson University: Engineering Course Equivalencies

CU COURSE	Bioeng.	Biosystems	Civil	Chemical	Computer	Electrical	Enviro.	Industrial	Material Science	Mech.
<i>General Engineering Requirements: Highlighted in purple</i>										
You must achieve a grade of 'C' or higher in all General Engineering courses before changing your major into a specific engineering major. General Engineering courses are recommended prior to transfer, but not required.

* CHE students should take CHE 1300 online through Clemson over the summer to stay on track, as CHE 2110 is only offered in the Fall (CHE 1300 is one of 3 prereqs for 2110).

^a Options to complete lab science requirement, choose one

^b Encouraged for those pursuing medical school

^c MSE students can take a one-semester overview of Organic Chemistry at Clemson, or take both Organic Chem I and Organic Chem II and transfer them in from Spartanburg Community College.

^s Creative Inquiry course required for students participating in the SPECTRA transfer program.

Students desiring to transfer into one of Clemson's 10 engineering majors must have completed a minimum of 30 hours of transferrable coursework with a minimum GPA of 2.7. This is a minimum requirement to be evaluated and does not mean certain acceptance. The Undergraduate Admissions office makes all decisions on student acceptance. Admissions Office: 105 Sikes Hall, 864-656-2287

This worksheet is intended as information only and does not imply a contract with Clemson University.

All engineering major curricula are available online at: <http://catalog.clemson.edu>

If you have questions or need further advice, please contact the CECAS Transfer Director:

Karen Thompson, M.Ed., at kt@clemson.edu or 864-656-2543.
